

# NAO strategy

We introduced our current strategy in 2009

**Strategic objectives**  
to achieve our goal of improving public services

Continuing challenges and ongoing austerity in public services

**Enhancements**  
from transformation

**01**   
**Strategic focus**  
Addressing the challenges that are the key drivers of government performance

**02**   
**Integrated assurance**  
Maximising influence from all our work

**03**   
**Investigations**  
Clarifying the facts where public money may be at risk

**04**   
**Local audit**  
Establishing our new role in local government

**05**   
**Collaboration**  
Work in an efficient, joined-up way

**Ways of measuring**  
our performance

How well is the public sector addressing its challenges?

Are our recommendations being accepted and implemented?

Does stakeholder feedback show we are adding value?

Is our work used by Parliament and other influencers?

Does our work generate savings to the public purse?
